FIRST CASH CALLED FOR USE IN LOAN

Banks in Syndicate Asked to Send About \$60,000,000 of Subscriptions.

NEW CREDIT ENVOY HERE

A call has been sent out by the syndicate managers of the \$500,000,000 Anglo-French loan, asking that the syndicate banks all over the United States, of which there are about a thousand, prepare themselves to send to New York on or before November 1 15 per cent.
of the amounts to be paid in. It will
be the first instalment on the loan.
This will amount to between \$60,000,000 and \$70,000,000. The money will be deposited in the National City Bank on its arrival here, that institution acting as the central depositary for the loan funds.

This will mean one of the greatest if not the greatest, inpouring of funds to this city that has been seen for years. It is certain that not since the \$100,-000,000 gold pool was in operation have the interior banks of the country been called upon to transmit as much of their money to New York as this call will Naturally, however, the great part of the funds will be raised within the city of New York, which, owing to its great wealth and its prominence as a financial and trade centre, is un-derstood to have taken a large part of the issue. It is probable that further calls will follow from time to time, whenever they are required.

When the funds are deposited in the

National City Bank they will be drawn upon by the various members of the Angio-French loan commission remain-Co., commercial agents for Great Britain and France, through whom all of the war order business of these two coun-

war order business of these two countries is being placed.

It was learned yesterday that Sir Henry Paul Harvey had been designated by the British Treasury to come to this country to act in cooperation with Basil P. Blackett in attending to the final details of the Anglo-French credit and to arrange for supplementary credits. These two will cooperate with Octave Homberg, the remaining member of the French group of the Anglo-French commission, and Maurice Cassenave, president of the National Bank of have, president of the National Bank of Hayti, who is acting with Mr. Hom-

Sir Henry Paul Harvey, who arrived last night with Lady Harvey by the White Star liner Adriatic, would say only that the object of his visit was to attend to some of the minor details of the Anglo-French loan. He probably will be here for several months. He has had wide experience in financial matters, having been financial adviser to the Egyptian Government for some years. Since 1912 he has been auditor for the Government under the national health and insurance act.

Sterling exchange was especially strong yesterday.* Demand rose 2% cents in the pound over Wednesday's close. Cables were equally strong. Demand closed at 4.65, with cables at 4.65%. This compares with 4.62% for demand and 4.62% for cables on Wednesday. Francs improved, selling up to 5.94 for checks and 5.93 for cables. On Wednesday they were quoted at 5.96% and 5.96 respectively. Italian Berole. Butte & Lalayeras trubles advanced from 33% to 33%.

rubles advanced from 33¼ to 33½.

Mark checks were unchanged, closing at 81½, while cables closed at 81 9-16, against 81% on the day previous. Austrian kronen were un-

changed at 14.65.

The report that Russia would secure the loan for which she is negotiating here on a 9 per cent, basis was denied as ridiculous by bankers associated with the undertaking. It was pointed out that the yield on the Russian notes would be around 7 per cent.
